

# 207 Street

## Road Improvements

(118 Avenue – Dewdney Trunk Road)

### What are the City's Objectives?

- Improve safety for vehicles, pedestrians and cyclists along 207 Street
- Address vehicle movement and property access issues on 207 Street south of Lougheed Highway
- Upgrade laning and signal timing of the intersection at 207 Street and Lougheed Highway
- Resurface pavement and improve delineation between Lougheed Highway and Dewdney Trunk Road

# 207 Street

## Road Improvements

(118 Avenue – Dewdney Trunk Road)

### What is the Scope?

- Protected-permissive left-turn signals for northbound and southbound 207 Street to Lougheed Highway
- Raised medians to manage access and improve safety near the Lougheed Highway intersection
- Roundabout at 118 Avenue to provide U-turn routes and reduce collision severity
- Improve bike facilities connecting to Neighbourhood Bikeway
- Improve sidewalk and curb at southeast corner of Lougheed Highway intersection (preventing right turning vehicles driving over sidewalk)
- Remove island on northeast corner of Lougheed Highway to allow two through northbound lanes
- Pavement rehabilitation on 207 Street between Dewdney Trunk Road and Westfield Avenue

# 207 Street

## Road Improvements

(118 Avenue – Dewdney Trunk Road)

## How Will Property Access Change?

- Right-in/right-out only access for some properties. This will enhance safety.
- Roundabout to allow U-turns for property access.
